Carole Ceja has over 12 years of architectural experience specializing in the evaluation, investigation, design, and repair of roofing and waterproofing systems. A roofing expert, she has extensive knowledge of roofing materials and assemblies, repair/replacement approaches, and construction quality assurance programs. She has developed construction documents, specifications, and performed construction administration and inspection of complex roof repairs to existing buildings and historic structures.

She utilizes the latest nondestructive and air/water infiltration field testing techniques to evaluate and assess building enclosure performance, moisture intrusion, and condensation problems. Her experience has involved commissioning and witness testing of building enclosures and components, and thermal modeling to analyze their performance.

With her extensive roofing knowledge, she has provided litigation support services on various roofing failures and water leakage issues.

Prior to joining RRJ, she was an Architect for nine years at a national architectural and engineering forensics consulting firm. Previously, she interned at two architectural firms and a lighting design practice based in Illinois.

### ■ EDUCATION

Master of Architecture: Structures Option, 2006  
 University of Illinois at Urbana-Champaign

Bachelor of Science in Architectural Studies, 2004  
 University of Illinois at Urbana-Champaign

### ■ REGISTRATIONS | CERTIFICATIONS

Licensed Architect in Illinois

National Council of Architectural Registration Boards (NCARB) Certificate Holder

Registered Roof Consultant (RRC)

### ■ PROFESSIONAL AFFILIATIONS

RCI, Inc. (Institute for Roofing, Waterproofing, and Building Envelope Professionals)

ASTM International  
 Committee D08 on Roofing and Waterproofing

Chicago Roofing Contractors Association

Chicagoland Women in Roofing

## CAROLE M. CEJA, NCARB, RRC

Architect II
