Colin Rueb has over four years of engineering experience in field investigations and condition surveys of distressed buildings, water intrusion and air infiltration testing, structural analysis, and litigation support for various projects.

He has performed structural analysis to determine failure causation related to concrete construction, facade systems, and building components.

Prior to joining RRJ, he worked as an engineering intern for a national architectural/engineering forensic consulting firm and the City of Naperville, Illinois, Engineering Department. He gained experience in field investigations and surveys, and structural design of damaged buildings, historic structures, and road construction/rehabilitation projects. He served as a laboratory instructor in the Department of Civil and Environmental Engineering while working on his Master's degree at the University of Illinois, Urbana-Champaign.

■ EDUCATION

Master of Science in Civil Engineering, 2014
 Focus in Structural Engineering
 University of Illinois at Urbana-Champaign

Bachelor of Science in Civil Engineering, 2012
 University of Illinois at Urbana-Champaign

■ REGISTRATION

Licensed Professional Engineer in Illinois

■ PROFESSIONAL AFFILIATIONS

American Concrete Institute (ACI)
 Young Professional Member
 Associate Member, Committee 222 -Corrosion of Metals in Concrete
